Target Markets Identification

Global IT Spending by Vertical Markets - Size & Growth 2005-10

Know the scope and size of your market segment by geography – IMEX Research creates annual IT spending forecasts across all of the major industries. You can identify the total size and scope of the market as well as determine which channels will be ideally suited for your company size, product portfolio, targeted market share goals and your marketing, sales & service plans.

Know where the money is – Aside from having valuable Channels of Distribution resources, IMEX has carefully mapped out the money trail showing all the IT Spending for each of the major channels of distribution.

Formulate effective Channel and Partnership Programs – Besides a good strategy, the real key to a successful penetration of SMB markets is in formulation and execution of effective Channel and Partnership programs.
**Targeting Channel Money Flows**

With IMEX Research’s custom Go-to-Market Reports, companies are able to more effectively target specific distribution channels to help bring their product to the market, while concentrating more on product development and management.

**Market Segments by Applications**

**SMB Market Opportunity**

Secure your market share
The SMB Market is exploding, IT spending for SMB has far outpaced large company spending, and many companies are now shifting their focus to this fast growing segment. With Mid size businesses growing at 9.2% annually and small businesses spending growing at 12%, The potential is massive for the companies who strategically position themselves as market leaders in their respective field.

SMB / Mid Market

- Get the tools for Success in the SMB Market – The SMB market is massive, and IT spending for these companies have caught the interest of many Vendors, who until recently have traditionally targeted large scale enterprises. The IMEX SMB Market Report and Database could be the key to unlocking the massive potential of this market. With it’s Go-to-Market Subscription Services IMEX can also identify the type of technologies SMBs are buying, the pricing structures and dynamics of the SMB market, and what channel programs and terms most SMBs want out of a vendor.

- Go-to-Market with Confidence – Customizing Go-to-market Report, IMEX can help you with an effective Go-to-Market Strategy based on your product lines and vis-à-vis your competition. You will be able to understand the dynamics of the SMB market, know the factors driving IT spending for SMBs, and gain knowledge from profiles of the leading vendors targeting the SMB market, all of this to implement an effective Go-to-Market Strategy, Channel Programs, and sales approaches which will be attractive to SMBs.

- Identify Your Available Market Channels – IMEX has a vast database of OEM’s, Distributors, Value Added Resellers, System Integrators, Value Added Data Service Providers, and End Users. All of IMEX’s market resources are categorized by region, size, type and other criteria.
